Recent or Future DegreeWorks Features:

Student Educational Planner - Some improvements in Dec 2011 release; others coming later

What-If Audits - Ability to save and freeze What-If Audits; Improved parameters for What-If Audits

FYI ON PC TOOLS: At this time, only SureCode, WebTreQ (which we don't use), and new SHP entry have Web-based options. Transit and Scribe will take more time, but are slated for conversion by 2013. Web-based environment uses Adobe Flex & the Apache Tomcat server. An EAG Work Request has been submitted to get that set up in DW TEST (but may require resubmission). Once entire set of PC Tools has been converted to the Web-based format, it will eliminate need for PC Tool installation on individual machines. Users (REG only, presumably) would access the "PC Tools" via a tab option within the Web version of DegreeWorks. PC Tool version of SureCode to be sunset June 30/July 1, 2012.
